Areas of Future Concern

Introduction

This represents just some of the information that I have gathered over the last 2 years. Some things have occasionally been allowed on media site. Most have been banned in an effort to “control the narrative” and “maximize the profits” of the experimental technologies we have seen pushed on our society and the world. I can assure you they did not have your “best interest and health” at heart.

My hope is that you will consider looking through some of these links with an open mind. If something rings of truth, I encourage you to do your own research. That is what we have done, exhaustively, for the past 2 years.

We have had to use Duck Duck Go, Rumble and Bitchute for much of it. I am very grateful for my groups of fellow researchers (all together easily over 40) that have also put many hours into searching for truth when it was being concealed by so many sites. Telegram has proved to be a reliable place to gather information. Often even messenger would not let clips or articles come through. And fascistbook has repeatedly put us in 30 day “time outs” for sharing things that “go against community standards” even if they came from the NIH or PubMed! If I was “quiet” on fascistbook, it was not by choice!

May “truth and freedom” once again be the focus of this society.

Plandemic: Background and Preparations:

It's difficult to make sense of the madness that we've experienced unless you dig a little into the goals of the WEF, the New World Order and their desire to reduce the world population and institute a One World Government.

Spoiler alert, they don't like our constitution or Bill of Rights. Through the updates in this just passed Omnibus bill and the pushes on the Pandemic Treaty, they will soon be able to bypass these documents much more easily to implement their One World Order, ESGs, digital and programmable currency and complete surveillance. Big Brother is indeed here.

This makes a good "overview"

Protection for Covid from the “vaccine?”

Peer-reviewed research from The Lancet shows that the experimental vaccines reduce your chances of catching COVID-19 by:

Pfizer: 0.8%
J & J: 1.2%
Moderna: 1.2%
AstraZeneca: 1.3%

"...The absolute risk reduction (ARR), which is the difference between attack rates with and without a vaccine, considers the whole population. ARRs tend to be ignored because they give a much less impressive effect size than RRRs: 1.3% for the AstraZeneca-Oxford, 1.2% for the Moderna-NIH, 1.2% for the J&J, 0.93% for the Gamaleya, and 0.84% for the Pfizer-BioNTech vaxxine."

(Published 20 April 2021)

In other words - NO prevention...

See:

[https://www.thelancet.com/journals/lanmic/article/PIIS2666-5247\(21\)00069-0/fulltext?fbclid=IwAR3G-dX-iePjVYSs4jTxPUJlspLgbZsthb0XisKttfRo02iJmrK4AZU7CJs](https://www.thelancet.com/journals/lanmic/article/PIIS2666-5247(21)00069-0/fulltext?fbclid=IwAR3G-dX-iePjVYSs4jTxPUJlspLgbZsthb0XisKttfRo02iJmrK4AZU7CJs)

Warriors of Truth and some of their research

These references would suggest that there are nefarious intentions behind the virus and the vaccine. I've tried to stay away from sources that were not high quality. There are plenty of very well respected doctors, scientists and professionals that were quite willing to risk their reputation by speaking out. My thought is they have nothing to gain and everything to lose.

Several people I have tried to follow lately are ... This is inclusive, not exhaustive. Each has many available videos. Search them on Rumble, Bitchute or Odysee video channels.

Attorney Reiner Fuellmich.

He is a German attorney with a license in California as well. He was part of the team that successfully sued VW several years ago, and part of the team that successfully sued Deutsche Bank in class action suits. He has been building the case against the fake PCR tests which make up the basics of the pandemic.

www.stopworldcontrol.com/Fuellmich

I think most of these videos above are listed one place or another on Reiner Fuellmich's site. These and the file are a good overview. I'm sure I've left a few others out!

It's been an interesting and disconcerting Spring learning the depth of these events. I've spent hours and hours (weekly) going through this between the Telegram group, several messenger groups and several other individuals! Much is connected to the World Economic Forum, Agenda 2020 and Agenda 2030...and so much more!

The more people search out the better prepared they can be. If you want more, I can continue! Lol.

From Public Health England...

SARS-CoV-2 variants of concern and variants under investigation in England

Technical briefing 19

23 July 2021

This briefing provides an update on previous briefings up to 9 July 2021...

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/1005517/Technical_Briefing_19.pdf

Attorney Reiner Fuellmich. He is a German attorney with a license in California as well. He was part of the team that successfully sued VW several years ago, and part of the team that successfully sued Deutsche Bank in class action suits.

He has been building a class action case against the fake PCR tests which make up the basics of the pandemic. But he's realized it's much deeper than that. His research and many interviews of top professionals around the world are available to view. He was part of the team that successfully sued VW the other year as well as Deutsche Bank.

<https://www.stopworldcontrol.com/fuellmich/>

From his site there are plenty of great interviews! You might look at his 2 with Dr David E Martin. Another powerhouse of years of research following the patent trails and economics behind things like SARS, H1N1, Anthrax and SARS-cov2

I can go on longer, but if you take the time to actually look at some of these, you might begin to get the point.

From a fb post... follow the hashtags...

"I encourage everyone to search the hashtags #protectyourfamily and #notrare and #wedid and #learntherisks. Read through the testimonies. Just a glimpse of what's not being reported."

Mortality rates from Covid are less than previously thought.

IFR (Infection Fatality Rate)

<https://www.medrxiv.org/content/10.1101/2021.07.08.21260210v1>

Conclusions The IFR of COVID-19 in community-dwelling elderly people is lower than previously reported. Very low IFRs were confirmed in the youngest populations.

For persons 0-19 years, the median IFR was one death per 37,000 persons with COVID-19 infection, followed by estimates of 1:7100 in ages 20-29, 1:3200 in ages 30-39, and 1:1200 in ages 40-49.

The Imperial College study (52) has 5-10 times higher estimates for persons 0-19 years and 20-29 years old; otherwise estimates in age groups <50 years are fairly consistent across previous (4, 5) and current analyses despite methodological differences. Thus, they may be used for assessing risk-benefits, e.g. with specific vaccines (54) in young populations.

Both the age distribution and other characteristics of people within the elderly stratum vary between different countries. E.g., obesity is a major risk factor for poor outcome with COVID-19 infection and prevalence of obesity is only 4% in India versus 20-36% in high-income countries analyzed here. Besides differences in risk factor characteristics, documentation criteria for coding COVID-19 deaths may have varied non-trivially across countries. Under- and over-counting of COVID-19 deaths may have occurred even in countries with advanced health systems.

Risk of infection, hospitalization, and death up to 9 months after a second dose of COVID-19 vaccine: a retrospective, total population cohort study in Sweden

<https://rumble.com/v1wac7i-world-premier-died-suddenly.html>

Anecdotal- Stories of the vaccine injured. An article and movie with the vaccine injured who’s stories keep getting squashed.

<https://dailyclout.io/anecdotal-stories-of-the-vaccine-injured/>

<https://www.anecdotalmovie.com/>

The Spike Protein is the reason why the vaccines might kill you

It normally takes over 10 years to make a new vaccine - This vaccine has been rushed.

No matter what you have been told there's no way they could have done all the tests they normally do in 10+ years in just a few months. Including waiting 9 months to see if children born to vaccinated parents are healthy.

The COVID-19 Virus is covered in Spikes - called "The Spike Protein". The new mRNA Vaccines get your body to produce millions of these "Spikes". There is no OFF button, once you are injected there's no telling when the body will stop making the Spikes.

The latest studies show that upto 75% of the vaccine leaves the injection site and travels in the blood all over the body. Potentially ending up in your ovaries, heart, brain and even bone marrow, which could lead to Blood Cancer (Leukaemia).

These "Spikes" are like having millions of tiny daggers inside your body. Many people have died from blood clots caused by the vaccines.

When they tested previous mRNA Vaccines in animals. The animals seemed fine at first. But when they were exposed to the real virus, their bodies over-reacted and they died.

Many people that died from COVID - died because their bodies over-reacted to the virus (this is called the cytokine storm) - Taking Vitamin D regularly (at least 4,000iu per day) will help prevent this over-reaction.

Flu season always occurs in winter when people cannot make enough Vitamin D from the sun. Taking Vitamin D is the easiest way to help reduce sickness from Flu / COVID.

Taking Vitamin D will also help reduce joint and back pain in as little as 2 weeks (take at least 4,000iu per day). As well as reduce your chances of getting Cancer, Heart Disease, Diabetes, Multiple Sclerosis and many other medical conditions. If more people took Vitamin D the medical companies would lose Billions in lost revenue.

Trust The Scientists

How many times have you heard the phrase "Trust The Scientists" but never seen anyone's name mentioned. Below are several Doctors & Scientists that warn against the vaccines.

Dr. Robert Malone - Inventor of the mRNA Technology - in June 2021 made a 3 hour video in which he says in great detail why the COVID vaccine is so dangerous

Dr. Michael Yeadon - Worked for Pfizer for 16+ years reaching the position of Vice President says these vaccines are dangerous

Dr. Geert Vanden Bossche - Worked in the vaccine industry his entire career says injecting millions of people during an ongoing pandemic is dangerous

Professor Dolores Cahill - from University College Dublin School of Medicine - Expects those that get injected to start dying or getting very sick within the next few years.

More Doctors that have spoken up about the dangers of the vaccines you can look up

Dr. Roger Hodkinson, Dr Byram Bridle, Dr. Peter McCullough, Dr. Zev Zelenko, Dr. Carrie Madej, Dr. Sherri Tenpenny, Dr. Stephanie Seneff, Dr. Lee Merritt, Dr Vernon Coleman, Professor Sucharit Bhakdi

More Information

Telegram is one of the few places you can find uncensored information and many videos about COVID vaccine safety which YouTube removes.

Download from Google Play or Apple App Store for Free

SCAN ME
Telegram COVID Vaccine Video Channel

“How bad is My Batch?” This would be a good time to make you aware of the site, You can look up your vaccine batches to see how many VAERS reports have been filed with it.

<https://howbadismybatch.com/> Or <https://howbad.info/>

You Will find there is a large discrepancy in some batches, which the the very least, shows a lack of consistency in the production process.

Dr Russell Blaylock excellent summary article on the pandemic

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC8720447/>

A good summary of what we have been witnessing these last few years. The “fourth industrial revolution” as Klaus Schwab calls it or 5GW/5th Generation Warfare as these call it. Which is the Global Cabal of elitist leaders through the WEF to restructure the world into a One World Order run by unelected leaders through the demise of our constitution and Bill of Rights.
Interview starts at about 10 minutes in.

<https://rumble.com/v1w9cx8-interview-with-michael-flynn-and-boone-cutler-authors-of-introduction-to-5g.html>

If you aren't familiar with **Yuval Harari**, you also need to look him up though he is referenced briefly in The Plan. He is considered the advisor of the like of Klaus Schwab, Bill Gates, with other admirers in Obabma, et al.

The Pandemic Treaty concerns- The Who and UN are colluding to be able to declare a “Pandemic” as they see fit, where they see fit, that will allow them to supersede the protections of the constitution and basically put any country in martial control at the behest of one man.

Books for Further Research and Documentation

Book list on Covid and science in general information...

*Robert F Kennedy's book...

<https://www.amazon.com/Real-Anthony-Fauci-Democracy-Childrens-ebook/dp/B08XQYGC68>

And from page 323 of "The Real Anthony Fauci "

CHAPTER 10 MORE HARM THAN GOOD

"It's like waking up in your house with a room full of smoke, opening the window to let the smoke out, and then going back to bed." — Unnamed Medical Expert In the last chapter, we heard global public health advocates accuse Bill Gates and Dr. Fauci of hijacking WHO's public health agenda away from the projects that are proven to curb infectious diseases (clean water, hygiene, nutrition, and economic development) and diverting international aid to wedge open emerging markets for their multinational partners and to serve their personal vaccine fetish. This chapter will examine Gates's underlying assertion that his African and Asian vaccines are yielding a net public health benefit.

Allergy to Placebo Testing Most medicinal products cannot get licensed without first undergoing randomized placebo-controlled trials that compare health outcomes—including all-cause mortalities—in medicated versus unmedicated cohorts. Tellingly, in March 2017, I met with Dr. Fauci, Francis Collins, and a White House referee (and separately with Peter Marks from CBER at FDA) to complain that HHS was, by then, mandating 69 doses of sixteen vaccines¹ for America's children, none of which had ever been tested for safety against placebos prior to licensing. Dr. Fauci and Dr. Collins denied that this was true and insisted that those vaccines were safety tested. They were unable, however, after several weeks, to provide us a citation for a single clinical trial using an inert placebo against a vaccine. In October 2017, Del Bigtree and Aaron Siri— who both attended these meetings—joined me in suing HHS under the Freedom of Information Act to produce the long-promised safety studies.² Ten months after the meeting with Fauci and Collins, on the courthouse steps, HHS admitted that we were, in fact, correct: none of the mandated childhood vaccines had been tested for safety in pre-licensing inert placebo tests.³ The best of Bill Gates's African vaccines are all on this list. But Bill Gates also uses a large retinue of much more dangerous and demonstrably ineffective vaccines in Africa—ones that Western countries have actually rejected because of dire safety signals. That means that nobody knows the risks of these products and nobody can say, with specificity or certainty, that any of Bill Gates's flagship vaccines actually prevent more injuries and deaths than they cause. Furthermore, it means that all of Gates's African vaccines are experimental products. For Gates and his cronies, the continent is a mass human experiment—with no control groups and no functional data collection systems—for shoddily tested, high-risk medical interventions. His unwillingness to actually measure or prove the effectiveness of his prescriptions in reducing mortality and improving health suggests that Gates appreciates that his vaccines are not the human health miracle he proclaims. Because Gates and Dr. Fauci suffer the same allergy to funding studies that examine the effectiveness of their vaccines in improving health and reducing mortality, neither man has ever offered empirical evidence to support their pivotal claim that their vaccines have "saved millions of lives." The meager published science examining this question indicates that virtually all of Gates's blockbuster African and Asian vaccines—polio, DTP, hepatitis B, malaria, meningitis, HPV, and Hib—cause far more injuries and deaths than they avert.

Results of the Experimental Gene Therapies, Jabs and Meds used

ADE: Antibody Dependent Enhancement/ This was an early concern, which is being realized. It was a consistent concern in the early mRNA trials and why they never got beyond animal studies.

The novel coronavirus poses a great challenge and has caused a wave of panic. In this review, antibody-dependent enhancements in dengue virus and two kinds of coronavirus are summarized. Possible solutions for the effects are reported. We also speculate that ADE may exist in SARS-CoV-2.

<https://www.sciencedirect.com/science/article/pii/S1201971220307311>

Remdesivir: Side effects and issues.

Ebola Study where Remdesivir was removed because of its excessive mortality, and liver and kidney failure.

https://www.nejm.org/doi/full/10.1056/nejmoa1910993#article_comments

See particularly the mortality section. The highest mortality was in the Remdesivir population, regardless of the amount of viral load. Remdesivir was removed from the study because of safety issues.

Another excellent video! Dr Bryan Ardis gives why he's become so passionate, his research, with lots against Remdesiver and quotes from several other medical articles and NIH references.

This was from 2021.

<https://www.bitchute.com/video/FgFcsnp8KMc3/>

Those medical articles and references are included in a download when you sign up for his newsletter. His link is below the video if you click on "more."

One of the downloads is a paper, which includes the links. I'll post it next.

This is one of the downloads from Dr Ardis' site. It includes the links he references.. More excellent information!

https://cdn.shopify.com/s/files/1/0565/7542/6731/files/The_Dangers_of_the_covid_19_Vaccine_Report_-_Updated_07.26.2021.pdf?v=1627424392&_kx=A7IYI_U_ZnJSeCLPtfp1JZPQCO7hDsq_TFsE35NIYp8%3D.SwvL6p

Now for the link he references 40 minutes in...

<https://www.covid19treatmentguidelines.nih.gov/therapies/antiviral-therapy/table--characteristics-of-antiviral-agents/>

Scroll down to chart 2 E and click. Then scroll down to the second treatment option!!! Guess what it is?

Here's the direct lick to table 2 E... (not surprisingly, this link has been deleted, though Dr Ardis explains it well in the video above).

<https://www.covid19treatmentguidelines.nih.gov/tables/table-2e/>

Areas of Future Concern

Pandemic Treaty- the push to cede power from our constitution to the WHO and UN. Should the leader of The Who (one unelected no American official) feel there is concern of another health crisis or perceived pandemic, he will be able to declare a pandemic. What could go wrong there?

<https://eppc.org/publication/the-whos-pandemic-treaty/>

Catastrophic Contagion- Yes, they are planning the next pandemic! They just completed "Table top preparation" for the next pandemic of an enterovirus.

<https://www.centerforhealthsecurity.org/our-work/exercises/2022-catastrophic-contagion/>

Video on Catastrophic Contagion

https://youtu.be/l3fXo_XU9DA

Substack on Catastrophic Contagion

<https://mcdermod.substack.com/p/catastrophic-contagion-the-next-pandemic>

<https://thewashingtonstandard.com/catastrophic-contagion-bill-gates-johns-hopkins-the-who-just-simulated-another-pandemic-video/>

Seems B & M Gates Foundation, Wellcome Trust, John's Hopkins, WEF, Rockefeller Foundation keep popping back into the mass push for vaccines.

*****It's rather interesting and telling that no emphasis is put on Early Treatment! 🙄🤔**

Supplements to reduce severity of COVID...

<https://www.uspharmacist.com/article/common-supplements-might-reduce-covid-severity>

Detox Treatment protocols (as well as on flccc)

<https://worldcouncilforhealth.org/resources/spike-protein-detox-guide/>

<https://drleemerritt.com/covid-information>

The Covid reference guide I've shared with many friends.

COVID Go To Guide

I have researched this for over a year now and have many things bookmarked or saved to lists for reference!

While I can't give medical advice as I am not a doctor, I can sure share websites that may be very helpful!

There are several wonderful sites you should bookmark and pages within those sites to be very familiar with! No kidding! Be familiar with this so you don't have to research when you don't feel good!

1) The first I would suggest is... <https://aapsonline.org>

It's is the association for the independent doctors, some of whom have developed very good early treatment protocol options that have been very successful at preventing hospitalization! There is a link at the very bottom of their page that lists 14 different protocols. You will find a lot of overlap between them.

2) It's good to be familiar with the consistencies between the different protocols! Here is the link from the bottom of aapsonline... <https://c19protocols.com>

I have followed mostly the second one listed which is from flccc.

3) Here is that link...

<https://covid19criticalcare.com/wp-content/uploads/2020/11/FLCCC-Alliance-I-MASKplus-Protocol-ENGLISH.pdf>

These are 3 pages I would print out and be very, very familiar with!

4) Get the supplements ahead of time. Have the additional supplies on hand and be familiar with how to use them. Know that simple nasal rinses and gargling can help destroy the virus in nasal passages where it multiplies for about 7 days.

5) Make sure your D3 levels are good. Most knowledgeable doctors are saying above 50 ng/ml. Optimal is 51-70 ng/ml per this video I found last year... <https://youtu.be/ha2mLz-Xdpg>

6) If you want a longer reference guide that gives you plenty of detailed information about each of the stages of the illness, then bookmark this page...

<https://covid19criticalcare.com/wp-content/uploads/2020/12/FLCCC-Protocols---A-Guide-to-the-Management-of-COVID-19.pdf>

The biggest thing is don't wait til you feel like crap to get familiar with this information! Treat early! Don't wait! If you can't find an independent doctor that will treat early, flccc and AFLD (America's Frontline Doctors) both maintain lists of doctors that do Telemedicine calls. And look for independent pharmacies that are willing to fill Hydroxychloroquine or Ivermectin. Many of the big box pharmacies will not!

7) I also have saved a copy of the dosage charts for IVM, which I'll share. There are some changes in the newer flccc protocol from this dosage list.

<https://docs.google.com/spreadsheets/d/15h29GQcUxpFH4K4oIhdYu5bl-09I5HpcZJu6Z5c7XH4/htmlview>

The list of various protocols on flccc

<https://covid19criticalcare.com/treatment-protocols/>

You can download the various options that are easy to read files and charts.

Stay well and like a good scout... "be well prepared!"

Supplements that may help reduce inflammation

Glutathione: <https://www.medicalnewstoday.com/articles/323936>

The Role of Glutathione in Protecting against Severe Inflammatory Response Triggered by Covid-19

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC7402141/>

Famotidine: (same as Pepsid AC)

Reduces inflammation, allergic reactions. I was told about this by my family doctor who suggested I carry it when I am higher risk of hives to bee stings. It neutralizes the venom, just like the stomach acid!

NAC:

Milk Thistle;

TUDCA:

Zinc iodophors: (these supplements are needed to get zinc into the cells to stop viral replication)

Ivermectin, NAC, Quercetin- each of these also reduce inflammation and help strengthen immune systems.

EXTRAS

A surprising rabbit hole during all the digging and researching

It's equally interesting to research "Ivermectin, Cancer, NIH."

Fenbendazole and cancer

Blog and links by Joe Tippens.

Joe was stage 4 Small Cell Lung Cancers (SCLC) and given about 3 months to live after following M D Anderson's treatment protocols.

This file is the "Cliff Notes version" of his blog. The full blog is

<https://www.mycancerstory.rocks/single-post/2016/08/22/shake-up-your-life-how-to-change-your-own-perspective>

Links from the blog to research further...

<https://www.nature.com/articles/s41598-018-30158-6>

Fenbendazole acts as a moderate microtubule destabilizing agent and causes cancer cell death by modulating multiple cellular pathways

"A German videographer/researcher/documentary producer Stephan Stahl has just released a 2 hour and 23 minute documentary covering a large variety of methods, stories and successes.

I highly recommend watching the entire 2.4 hours of the documentary. Stephan Stahl apologizes for his English as German is his native language and he simply didn't have the budget to hire a native English narrator.

You will see in the movie many other things familiar to you including the Care Oncology/Jane McLelland repurposed drugs as well as others."

<https://www.marine-medicine.com>

YouTube interview of Joe Tippens...

https://youtu.be/HYILnjjc_wuY

A link to Joe's CBD Oil provider... "A Pharmacy Recommendation

As you have read below in my section regarding my regimen, I truly believe there are a few key supplements that contributed to my amazing story. But with all of them, obtaining the right ones with the right purity levels and concentrations is not easy. Let me save you some time and money. A member of my prayer posse is a very trusted pharmacist that can get you 1. the right high purity CBD oils. Of course, he will not sell you the Panacur C, but that is cheap and readily available from a number of on-line sources. If you are interested in supplementing the fenbendazole with the right complimentary supplements, contact mcadoodandy@gmail.com and tell him Joe sent you

Note: I am not doing this blog to make money in any commercial way. Everything in the regimen can be sourced by yourself easily on line. I provide Randy McAdoo's contact info as a means of convenience.

Some cancers successfully treated...

"The stories are now coming in too fast to chronicle all of them here but JUST in the past week, people having success with Ovarian, Breast, Colo-Rectal, Melanoma, Lung, Pancreatic and Liver Cancer have reported remarkable results....and as the above attached research suggests, this regimen SEEMS TO BE cancer agnostic."

There is a new facebook page for any and all discussion regarding this blog

www.facebook/groups/mycancerstoryrocks

Facebook Page Link and Password:

I highly recommend you join the facebook page discussion by the same name at the following link:

www.facebook.com/groups/mycancerstoryrocks/

Important: You will be asked to answer 3 simple questions and provide the Password.

Password: **Slice**

Important:

The Facebook Page is set up as a Closed Group, such that people feel free sharing confidential information. As Such, it is limited to ONLY patients and care-givers (defined as direct care-givers, spouses and family).

If you are only curious intellectually and looking for basic information, please rely on this blog, and do not be offended if the moderators there do not admit you to the group.

PODCAST MAY 15, 2019

The co-founders of the podcasts at Wellness-Speaks were gracious enough to interview me and the link is below for those interested enough in listening to it. It is over one hour in length, but it is chock full of valuable information.

Disclaimer: I am not a doctor and I am only qualified to tell my unique story. I am not prescribing anything

Please click below

<http://www.wellness-speaks.com/episode-040-wellness-speaks-with-joe-tippens-about-his-cancer-story/>

OCTOBER 25, 2019 ATTENTION: IMPORTANT ANNOUNCEMENT

"I have been alluding to this for some time, but it is finally here. The very impressive research foundation OMRF www.omrf.org has agreed to help all of us with clinical review of the FZ protocol from our participants on the www.mycancerstory.rocks blog, the www.facebook.com/groups/mycancerstoryrocks Facebook group page as well as from hundreds from my personal email correspondence. I also intend to notify similar groups run by Tamera Fields in case she decides to participate.

Please be aware, however, that in order to have integrity of data and processes, OMRF will not proactively reach out to patients, but rather patients will be required to contact OMRF. To aid in this, all of us need to reach out to our known worthy cases and remind them that if we would like them to be included in the study (and we would greatly appreciate their participation), they need to contact OMRF at:

Matt Slief

Matt-slief@omrf.org

405-271-7221 a dedicated line just for this project

Also, it is very important to remind everyone that participation will require:

1. A signed consent to participate
2. Signed releases for medical records from all appropriate providers, including all medical, path, imaging, medications etc. This will be an authorization to use or share protected health information for research purposes.

Matt Slief will get you those forms once you contact them.

Please Note: This is NOT a clinical trial, but a retrospective review of each of our unique cases. You will not be asked to take any medicine or change what you are already doing.

I will personally go through my own notes and remind individual people to contact Matt Slief at OMRF, but I am most certain that I will inadvertently miss some. Please reach out to any known cases you think would be pertinent to this all-important study. You are part of this effort and I believe you will be proud."

“Without boring you with the details, the following paper was recently issued by Stanford University and University of Washington. The significance? All clinicians, scientists AND patients come from the project we started at the Oklahoma Medical Research Foundation to begin auditing success stories. To the thousands (millions actually) that have followed this with interest, I'm here to say that the "cat has left the barn".....and I am extremely proud. Please read...”

THE NEW PROTOCOL

Fenbendazole 222 mg (1 gm of Panacur™ or Safeguard™) per day every day.
Note if you are using liquid - most liquids are 100 mg/ml. You would take 2.2 ml of the liquid.

Onco Adjunct™ Pathway 1™ - 4ml 2 times a day

Onco Adjunct™ Pathway 2™ - 1-2 capsules 2 times a day only when you are off chemo.

Onco Adjunct™ Pathway 3™ - 1-2 capsules 2 times a day if you are trying to starve your cancer of sugars.

Onco Adjunct Pathway

IMPORTANT: I will not receive any financial remuneration from this company for the sale of these products and I do not own any stock of the company.

I have a significant announcement to make. Several months ago, I was introduced to a researcher who collaborates with other PHD's, MD's and researchers globally in the pharma and nutraceutical space.

They have developed some patented technologies that they apply to specific classes of plant extracts and botanicals that dramatically enhance delivery of those ingredients into the bloodstream at exponential levels.

Over the months we have met together, and I have performed extensive due diligence on what they can offer. We've discussed a 3-pathway approach and philosophy for cellular support through supplementation that I believe will complement fenbendazole greatly.

- Pathway 1: CBD Tincture: CBD has always been part of my protocol, but the new product will incorporate some important changes. As we have learned more about the potential benefits of hemp extracts we have discovered that the species of hemp, the methods of its extraction, the ratios of acidic forms of cannabinoids to non-acidic forms of cannabinoids all play a critical role in how well Hemp extracts can have on cancer outcomes.

In my research of Hemp extracts – Onco Adjunct Pathway 1 – product hits all of the important qualities for a hemp extract. First the product is cryoextracted, this preserves the terpenes and the non-decarboxylated cannabinoids. Second, this product uses a proprietary strain of cannabinoid that has actually been tested on cancer cell lines. And Third, they supplement the CBGa cannabinoid to standardize it up to 7mg per dose, something that I believe could be significant. Finally, they add in two other important ingredients, the first being Frankincense, an iconic material dating back to the biblical times and recently the topic of a ton of cancer research. The company's work on Frankincense focused on a collaboration with Dr HK Lin, the iconic researcher who studied Frankincense as a supplement for cancer for more than a decade. Together they developed an approach that uses specific fractions of Frankincense that are the most beneficial, according to his research. Finally, a Nano molecule carrier, C60 has evidence to show that it could help significantly with low dose chemotherapy, reducing the toxicity of chemo to healthy cells and increasing the toxicity to unhealthy cells.

The Onco Adjunct Pathway 1 is a unique combination of Cryo Extracted Hemp, with Middle Eastern frankincense essential oils and the Nano C60 carrier, all in one tincture.

Some people may wish to stay with the previously recommended Forgotten Trails CBD from Pharmacy Plus at mcadoorandy@gmail.com and they will continue to supply that as well.

- Pathway 2: Curcumin: Curcumin has always been part of my protocol, but even the product that I have previously recommended, Theracurmin HP, simply does not tackle the problem of absorption into the blood stream. You all know I have recommended Theracurmin for some time as being the best, most highly bioabsorbable Curcumin I had found. What I didn't know about was Ultra Botanica's LPS technology UltraCur (UltraCurcumin). Data shows better absorption above Theracurmin by at least 6X and their consumer experience proves this out. Their product by itself is a game changer in curcumin and I would have left it at that except the science behind Quercetin, an equally important

polyphenolic compound as Curcumin also using their LPS technology to make it absorb into the body. Previously I had been reluctant to recommend Quercetin (also recommended by Jane McClelland and many others) as it had the same problem as Frankincense and Curcumin in absorption into the blood stream. Why take something that simply isn't being utilized in the bloodstream? UB's LPS technology solves that problem and they have added the convenience of taking them together with one product.

Specifically, Onco Adjunct Pathway 2 is a combination of 300 mg of Clinical Grade UltraCurcumin, 200 mg of Clinical grade UltraQuercetin and 100 mg of Frankincense powder. There is a lot I could share about the cellular pathways that Curcumin, Quercetin and Frankincense affect, I will leave that to another time.

- Pathway 3: Berberine: None of you have heard me recommend Berberine up to this point, even though many researchers have recommended it. Much like Frankincense, Curcumin and Quercetin, Berberine also is not bio-available into the blood stream. Something this company's LPS technology solves. In evaluating the new curcumin and new hemp options I had the opportunity to take a fresh look at Berberine. As most people know, cancer cells are devourers of sugars / glucose in the body. In fact, cancer cells are glucose monsters. Jane McClelland and many cancer coaches strongly recommend starving your cancer cells by ketogenic diets, and Care Oncology recommends Metformin in its protocol for the same reason. For those of you that are serious about starving your cancer cells from glucose, adding in Pathway 3 to your regime could help. Berberine in its soluble LPS form modifies glucose metabolism in much the same way that Metformin modifies glucose metabolism. The scientists in India proved that Fenbendazole is effective in interrupting cancer cells' ability to metabolize sugars and I believe by adding in UltraBerberine as Onco-Adjunct Pathway 3 you further diminish the ability of cancer cells to devour glucose, weakening them and putting their survival at risk.

You can learn more about ONCO Adjunct and order the products at the following [Onco-Adjunct™ Product Page](#). The reason I am not linking the direct products here, but rather giving you a link to their page is due to FDA regulations. I need to make it clear that the information you'll find on their site is fully compliant with the FDA regulations which prohibit them from saying specifically what the products can do that is cancer specific. Their manufacturing facility is an FDA cGMP facility held to the highest quality standards possible.

Please understand the company is not withholding information from you, but they're saying what they can to stay in a safe haven with the FDA. The last thing we want is for these products to go away because of a violation.
